Online Registration, Payments Now Available for Rec. Programs

La Vista residents can now register and pay for Recreation Department programs and rentals online.

Effective today, the new online system, provided by Active Network, will be available to anyone registering for a recreation program, reserving a room at the Community Center or reserving a park shelter.

This system is accessible through the City's website and allows residents the ability to track the items they purchase and will conveniently save payment information for future transactions, all in a secure, online environment.

To access the system, visit the City's website at www.cityoflavista.org/active.

The Recreation Department will continue to offer registrations in person at the Community Center.
