Re: Amendment to City of La Vista Comprehensive Plan – Future Land Use Map

The approval of two annexation packages recently has prompted the amendment of the official Future Land Use Map to update the La Vista City Limits as depicted on the map. The parcels that were acquired by the City as part of the Thompson Creek acquisition and demolition project have also been amended to a “Parks and Recreation” land use category.

RECOMMENDATION:

Staff recommends the adoption of the amendment to the City of La Vista Future Land Use Map of the Comprehensive Plan to identify new city limit boundaries and an amendment of the land use category for the properties acquired as part of the Thompson Creek project.
